

Promoting Reasoning Skills

Multistep Worded problems

Missing number questions

Eg. $891 + ? = 2131 - 1234$

Multiple choice questions

True or False questions

Always, sometimes and never

Convince me that...

Spot the mistake in the question..

If I know What else do I know?

E.g. if $6 \times 4 = 24$ 24 is a multiple of 6.....

$6 \times 40 = 240$ $24 \div 6 = 4$ etc
