

Key Stage One

Children working from home - Year 1

In light of the most recent guidelines given by the government stating children with symptoms and their families have to self-isolate and stay at home for two weeks, please see below some ideas to help your children at home.

Grab a pencil and piece of paper and practise the below objectives:

Maths:

- Count in 2's, 5's and 10's to 100.
- Count to and from 100.
- Find one more and one less than a number. Challenge yourself and try finding 10 more and 10 less than a number.
- Write the numbers from 1 to 20 in words (one, two, three...)
- Number pairs to ten and twenty ($1+9=10$, $2+8=10$...)
- Practise your 2, 5 and 10 timetables- use timetable rock stars- link below and passwords sent out separately.
- Practise telling the time - o'clock, half past.
- Practise recognising coins and create a pretend shop at home.
- Shape hunt- find 2D shapes around your home (square, circle, rectangle, triangle).
- Shape hunt- find 3D solids around your home (cube, cuboid, sphere, cone).

Reading:

Read your current reading book and any extra books you have at home. We also have access to oxford owl reading books online. Please find the log in and password below.

Username: cranford12

Password: Cranford

Writing

Support your child with their writing target areas.

Key areas- capital letters and full stops / using and, because, or, then, so, but/ using ! ? / pre-cursive handwriting.

Below are some writing ideas.

- All about me fact file,
- Rewriting stories in your own words,
- Describe the picture- give your child a picture and ask them to describe the picture using adjectives (describing words).
- Writing a letter to your friends at school.

P.E

Keep as active as you possibly can. If you have access to a garden, go outside and play games, run around and get as much fresh air as you possibly can. Through youtube.co.uk there are videos created by a

sports coach which the children are used to seeing at school. Please use these to keep your children active and moving when at home.

www.youtube.co.uk - search for 'Joe wicks kids workouts.'

Topic

Our current topic that we have been looking at is 'The Victorians.' Ask your child to make a fact sheet about the Victorians including all the facts they know about Queen Victoria and life at school.

Next term we will be starting to look at 'Explorers.' These will include Christopher Columbus and Neil Armstrong. Research these two explorers and find out why they are famous. Create a poster, fact file or project based on these two key figures of history.

Science

Our topic for this term is animals. We will be looking at the different types of animals including birds, mammals, amphibians, reptiles and fish. Discuss the differences between these types of animals and ask the children some key questions, for example- Why is a fish different from a mammal? What makes an animal a mammal?
