

Key Stage One

Children working from home - Year 2

In light of the most recent guidelines given by the government stating children with symptoms and their families have to self-isolate and stay at home for two weeks, please see below some ideas to help your children at home.

Grab a pencil and piece of paper and practise the below objectives:

Maths:

- count in steps of 2, 3, and 5 from 0, and in 10s from any number, forward and backward,
- recognise the place value of each digit in a two-digit number (tens and ones)
- compare and order numbers from 0 up to 100; use $<$, $>$ and $=$ signs
- read and write numbers to at least 100 in numerals and in words
- Practise number pairs for addition and subtraction to 20 fluently, and practise facts to 100. For example- $9 + 11 = 20$, $8 + 12 = 20$.
- add and subtract numbers:
 - o a two-digit number and 1s ($21 + 9 = 20$)
 - o a two-digit number and 10s ($21 + 10 = 31$)
 - o 2 two-digit numbers ($21 + 12 = 33$)
 - o adding 3 one-digit numbers ($8 + 7 + 2 = 17$)
- Practise the 2, 5 and 10 timetables. Use timetables rock stars to support.
- Shape hunt- find 2D and 3D shapes around your house and identify their features. For example- the bin is a cylinder shape. It has 2 edges and 3 faces.

Reading:

Read your current reading book and any extra books you have at home. We also have access to oxford owl reading books online. Please find the log in and password below.

Password: Cranford

Writing

Support your child with their writing target areas.

Key areas- capital letters and full stops / using and, because, or, then, so, but/ using ! ? , / cursive handwriting (joined writing).

Below are some writing ideas.

- All about me fact file,
- Rewriting stories in your own words,
- Describe the picture- give your child a picture and ask them to describe the picture using adjectives (describing words).
- Writing a letter to your friends at school.

P.E

Keep as active as you possibly can. If you have access to a garden, go outside and play games, run around and get as much fresh air as you possibly can. Through [youtube.co.uk](https://www.youtube.co.uk) there are videos created by a sports coach which the children are used to seeing at school. Please use these to keep your children active and moving when at home.

www.youtube.co.uk - search for 'Joe wicks kids workouts.'

Topic

Our current topic that we have been looking at is 'The Great Fire of London.' Ask your child to make a fact sheet about the great fire including all the facts they know about the fire and comparisons between life then and now.

Next term we will be starting to look at 'Easter.' This will include the Easter story. Research Easter and how it is celebrated around the world.

Science

Our topic for this term is Materials. Create a fact file about materials and their properties.

Next term we will be looking at plants. Research different plants found in the UK, this includes fruits, vegetables and trees.
